Preface

Some stories are found in achievements. Others are found in the moments between them the conversations that spark an idea, the teams that come together, the celebrations that create memories, and the small efforts that make a difference.

This edition of Samvaad brings together those moments from across Cosmos. From learning and wellbeing to team outings, community initiatives, strategic conversations, and Kaizen, each story reflects a different way in which our people learn, contribute, connect, and grow.

What makes these moments meaningful is not simply the event itself, but the people behind it their curiosity to learn, willingness to collaborate, spirit to celebrate, and commitment to keep improving. Together, these stories offer a glimpse of a workplace where progress is not just achieved, but experienced and shared. Because behind every milestone, there is a moment. Behind every moment, there are people. And together, they shape the Cosmos story.
